★ Goddess Tip!

When applying mascara, the wand must be clean before application. Always apply mascara in thin coats so that you can increase and build up the length and thickness of your lashes. This way, you avoid forming thick clumps of mascara on your lashes.

Be Generous, Goddess!

Life moves in cycles. Giving also moves in cycles. When we begin a cycle of giving, we introduce positive energy into the world. This positive energy then moves on through the cycle and eventually something good returns to us.

How do you give, Goddess? Do you give just to satisfy your obligations? Or do you give with your heart? Do you give of yourself? Think of all the talents and abilities you have. Do you possess a unique skill or ability? And give that part of yourself to your loved ones. Be inventive in finding ways and means to give something of yourself that is worth more than an item purchased at a store.

Generosity makes us feel prosperous, kind, warm and perhaps a little bit broke, but not necessarily financially. The rewards out there for the Giving Goddess are immense.

If you are having trouble thinking of something to buy a friend who seems to have everything, consider the Aveta Pampering option. Everybody needs a bit of pampering, whether it's a private reading, a relaxing massage, or a decadent beauty treatment. Check out our offers for some ideas.

NEW Therapy

Goddess Guided Massage:

This therapy will leave you feeling like you are floating. Our therapist is an experienced masseur who taps into her Goddess Guides to lead her hands to areas where you may be carrying tension or excess energy. This is not necessarily a deep tissue massage, but a gentle unleashing of all those negative energies which block your entire being.

Book a party for 6 and treat yourself to this wonderful experience for free. You can enjoy your massage with the party or any time after the party to quietly float away.
